Just imagine! When you're in Music, it turns into a whole different world. The magic world has castles, dragons, pianos, violins, cellos, clarinets, flutes, saxophones and other kinds of instruments. Right when you walk in, it turns into instruments as far as the eye can see. We have "Knights of the Music Room" and when we sing, oh, it's nice alright! I love it when we listen to the music because there are all different kinds when you listen. Some of the music in the room even makes the magic castle. As you walk in, you hear them start playing. Through the door you can't hear anything so when you walk in, it is a surprise. You can make the music room into anything musical. You just have to believe that it is alive and make it come to life. That's my magic world. I wonder what yours is?
